

Supply chain disruptions happen. Be the first to know.

Monitor your supply chain network with EventWatch.

EventWatch monitors millions of news and social feeds across 100+ countries and languages. Our AI removes the noise so your alerts are 100% relevant and our team provides well-researched, actionable notifications.

Our EventWatch Offers:

-  — Tailored notification preferences
-  — Virtual “WarRooms” to confirm supplier impact
-  — Collaboration with your team and suppliers in real time
-  — Access to “What If” scenario for proactive scenario planning

Monitor Disruptions Across:

Client Testimonial

“It used to take 6 weeks to understand which sites were affected by a supply chain disruption and respond. Now with EventWatch, our response time is 6 hours!”
